2. 2021 City Beautification Plan Projects
3. Stanwood Port Susan Trail Alignment Options
4. General Sewer Plan and Water System Plan updates (scope and fee)

Discussion:

- Waste Management Consumer Price Index (CPI) increase

**CITY OF STANWOOD
PUBLIC WORKS/PARKS COMMITTEE
AGENDA STAFF REPORT**

DATE: July 12, 2021
SUBJECT: July PWC Agenda Topics
FROM: Kevin Hushagen Public Works Director

1. PUD Transmission Line Project

Snohomish County PUD has submitted a permit application to Snohomish County to run a major transmission line facility along the south side Lover's Lane next to Heritage Park. This transmission line is part of their power system upgrades that will provide reliable power service to downtown Stanwood and Camano Island. Poles vary in height from 60 feet to 80 feet and will carry high transmissions lines and fiber optic cable. The existing power line on the north side of Lover's Lane will remain in place.

2. 2021 City Beautification Plan Projects

Three of the projects on the 2021 City Beautification work plan includes installing landscaping around key Snow Goose signs, install banner poles to create advertising space for special events, and to install service club signage. Scott Lankford of Lankford Landscape Architecture was hired to help the City with the designs. The following designs were reviewed by the Economic Development Board on June 18th and where they enthusiastically recommended that the City continue with the project subject to minor changes.

3. Stanwood Port Susan Trail Alignment Options

Consideration of two possible alignment options for the Stanwood Port Susan Trail Phase 2 near 98th Ave. Option 1 is an elevated boardwalk through the wetland (with two decking alternatives) and option 2 is a retaining wall with an earthen trail hugging the existing upland slope near the Public Works road shop. The Committee will be presented with design and cost estimates for each of the trail options.

4. General Sewer Plan and Water System Plan updates (scope and fee)

The purpose of this agenda item is to present the public works committee with the scopes and fees to update the General Sewer Plan (GSP) and the Water System Plan (WSP).

Discussion Items:

- Waste Management Consumer Price Index (CPI) increase
