Passcode: 341209

Telephone: (253) 215 8782

**CITY OF STANWOOD
PUBLIC WORKS COMMITTEE
AGENDA STAFF REPORT**

ITEM: 1
DATE: May 2, 2022
SUBJECT: Six-Year Transportation Improvement Plan (TIP) 2023-2028 third review
CONTACT PERSON: Kevin Hushagen, Public Works Director
ATTACHMENTS: A – Map of Projects
B – Project Cost Spreadsheet

PURPOSE

The purpose of this public works committee meeting is to review the changes that were requested to be made at the April 4th PWC meeting to the 2023-2027 Six-Year TIP. The committee members are being asked to review the changes that were made, make any new changes, and/or give approval to send to the City Council on May 12th for first review.

BACKGROUND

As required by RCW 35.77.010 the City of Stanwood is required to prepare and adopt a comprehensive transportation improvement plan (TIP) by July of each year for the ensuing six calendar years. In addition, the City of Stanwood's Six-Year TIP is required to be consistent with the adopted comprehensive plan and shall be filed with the Washington Department of Transportation as well as the Puget Sound Regional Council.

The purpose of the comprehensive transportation improvement plan is to assure that each city and town shall perpetually have available advanced plans looking to the future for not less than six years as a guide in carrying out a coordinated transportation program. The approved plan may at any time be revised by a majority vote of the council, but only after a public hearing(s) have been notice and held.

In 2015, the city comprehensive plan was adopted; Transpo Group developed the transportation element of the plan. As part of the transportation element a 20 year look ahead, and forecast is made and adopted in that plan. The Six-Year TIP is to create a more defined and attainable 6-year plan for adoption annually to be in line with finances and needs of the City while being consistent with the comprehensive plan. Projects seeking grant or outside funding need to be identified on the Six-Year TIP.

DISCUSSION

At the April 4, 2022, meeting committee members reviewed the proposed 2023-2027 TIP. Committee members prioritized projects, made changes to the project scope of work, removed unwanted projects, and added new projects to the TIP. The committee members are now being asked to review the project spreadsheet (Attachment B) and direct city staff to make additional changes and/or send to council on May 12th, 2022, for first review.

The following are lists of changes that were made to Attachment B.

Prioritized Projects: The following project priority levels were changed- the other priority levels were adjusted to fall in line with proposed funding year.

PROJECT NAME	PRIORITY LEVEL WAS	PRIORITY LEVEL MOVED TO
Viking Way-90 th AVE Phase 2	20	2
64 th and SR 532 Intersection	15	3
Main Street- 270 th ST and 271 st improvements	17	4
284 th St Improvements	2	5
Port Susan Trail	18	6
101 st Ave Reconstruction	10	19

Changes to the project scope of work: the following changes were requested to be modified

PROJECT NAME	CHANGES
80 TH Ave Reconstruction	This project was broken into two phases.
Main Street- 270 th ST NW and 271 st ST NW	Added lighting to the project
284 th ST Improvements	Adjusted project area from 80 th ST NW to east of city limits to 80 th AVE NW to 68 th AVE NW
Overlay and ADA Improvements	Updated to have the proposed 2023 project listed.

Removed: the following projects were removed

PROJECT NAME	Description	REASON
Sidewalk: 284 th ST NW	North sidewalks	Only do sidewalks on the South side of 284 th .
Sidewalk: 90 th AVE NW	Add sidewalk to west side of 90 th between north of 271 st ST NW and 272 nd ST NW	The PWC felt this sidewalk was unnecessary, given the sidewalk project on 92 nd and the needed ROW and layout on 90 th
Sidewalk: 72 nd AVE NW	Include curb, gutter and construct missing sidewalk panels from 272 nd ST to 276 th ST NW	Upper left apartments installed some sidewalk on 72 nd and the portion continuing on to 272 nd presents wetland and grade issues. Sidewalk on east side already exist
72 nd AVE Improvements	SR532 to 276 th ST NW. Road improvements, including widening road, intersections improvements, curb, gutter, sidewalks, and planter strips.	A large portion of this is frontage associated with the Vine Street property and will be addressed with development.

Added Projects: additional projects requested by committee to be added to the 2023-2028 TIP

Westside Overlay	Overlays on 101 st , 102 nd , and 103 rd
